International E-Seminar on “Multidisciplinary Research - 2024”

“Multidisciplinary Research - 2024”

Dear Colleagues, It gives us immense pleasure to invite and welcome you to participate in International e-Seminar on “Multidisciplinary Research - 2024” organized by Balaji Institute of Education, Rangbadi, Kota (Affiliated to Kota University, Kota, Rajasthan) Kota, Rajasthan and your esteemed participation is cordially solicited.

Introduction

International e-Seminar on “Multidisciplinary Research - 2024” which will be held in Balaji Institute of Education, Rangbadi, Kota, Rajasthan on April 21st, 2024. The primary goal of the Seminar is to provide opportunities for the researchers, scientists, scholars, academicians, practitioners and students from all around the world to present and share ongoing research activities. This Seminar provides opportunities for the delegates to exchange new ideas and application experiences face to face, to establish research relations and to find global partners for future collaboration. We hope that the Seminar results constituted significant contribution to the knowledge in these up-to-date Teaching, Education & Learning. Submitted abstracts will be evaluated by the Scientific Committee. If your abstract has been accepted, and you presented the work at the Seminar (including Virtual Presentations), you are encouraged to send full-manuscript for journal publication. Please note that works published in the Seminar Proceedings cannot be considered for publication in International Journals elsewhere. The full manuscript must be submitted as a MS Word file in DOC or DOCX format (PDF format is not accepted). Please Submit your full paper after the Seminar. Thoroughly checked for errors and formatted it according to the Full Paper template. Manuscripts that are not properly prepared will be returned to the authors for revision and re-submission. All papers will be published in peer reviewed journal which will be published after Seminar is organized. The world is witnessing an unprecedented advancement and innovative approaches in various fields of social sciences that shaped our life. The goal of the Seminar is to bring together researchers from all parts of the world. It provides researchers ample opportunities for exposure to diverse experience in different fields; to exchange new ideas and experiences face to face; to link to global counterparts; to meet their peers; to enhance their potential and widen horizons and scope for future research.

Seminar Objectives:

- To enhance academic cooperation and research collaboration among young and experienced researchers from different parts of the world.
- To update the academicians, researchers, postgraduates, and practitioners, on the current trends and development in business management, education, social science, and humanity.
- Identify areas of common interests among researchers for future International collaborative research.
- To identify a platform for a series of Seminars for more advanced research.
- To encourage entrepreneurship in applied research.

Rural Entrepreneurship in India

Entrepreneurship can be seen as an inventive and imaginative retort to the globe and a capacity to perceive, start and endeavor an economic prospect. A business visionary is a pioneer who presents something new in an economy. Entrepreneur is doing things that are by and large not done in the standard course of business. To do the things in a better and new way is the motive of an entrepreneur. The businessman who is working in a routine manner cannot be an entrepreneur. Business enterprise the way toward making esteem through giving an extraordinary mix of assets alludes to the utilization of an opportunity, which requires an entrepreneurial demonstration and an entrepreneurial operator. Entrepreneurial activity to conceptualize and execute a thought, procedure of item serve or another business has inferred. Entrepreneurship plays a vital role in the development of rural areas. Entrepreneurial orientation based on motivating local entrepreneurial endowment and successive growth of home-grown companies. The development and growth of rural areas help in generating self-employment, resulting in spreading industrial and economic activities on larger scales and makes maximum utilization of the local labor as well as locally available raw materials. Now-a-days Rural Entrepreneurship has become the big opportunity for those people who have shifted to urban areas from rural or semi-urban areas. “India lives in villages and its true spirits lives in rural areas”- Mahatma Gandhi. 3/4th of India’s population is residing in rural agriculture and other allied activities for their good example of entrepreneurship because it process, risk, marketing, and inputs etc. which are the components of a business or enterprise.

Higher Education in Rural Education

Under the Ministry of Education, Government of India strives to promote rural India through Higher Education interventions. It designs, develops and promotes curriculum inputs for higher education programs offered by Universities and Autonomous Institutions in India. The higher educational streams of focus include: Rural Studies, Rural Development, Rural Management, Social Work and Education. The curriculum inputs are both theoretical and practical field-related relevant to rural India.

About Balaji Institute of Education, Rangbadi, Kota, Rajasthan, India

We, at Balaji Institute of Education offer supportive and inspirational environments for young enquiring minds to learn and grow with us. Our passion for learning means we achieve more than outstanding results. We strive to build confident and creative thinkers and aim at delivering an education that is truly relevant to their future.

Our Mission

International Seminar on “Multidisciplinary Research-2024”

“Multidisciplinary Research - 2024”

The mission of Balaji Institute of Education is to educate citizens and citizen-leaders for our society. We make true this through our commitment to the transformative power of education. Through a diverse living environment, where students live with people who are studying different topics, who come from different walks of life and have evolving identities, intellectual transformation is deepened and further conditions for social transformation are created. From this exercise, institute dream that students will begin to fashion their lives by gaining a sense of what they want to do with their talents and skills, assessing their values and interests and moreover learning how they can best serve the world.

About the Seminar: The ‘International e- Seminar’ spanning over a day is meticulously designed to bring together renowned academicians, honored researchers from distinguished institutions, Industry leaders and practitioners as well as doctoral students. With the greatest minds across the globe, a simulation will be developed on “ **Emerging Trends In Humanities , Social Sciences and Education Sciences Research**” to deliberate its influence on society, country and the world as a whole. The Seminar will provide a unique platform to the participants to evolve their ideas and cogitation as they listen to a well-crafted research presentation along with thought-provoking speaker sessions.
